

“The best Industrial Automation Talent: **secured.**”

ABOUT US

EGN recruits for industrial automation distributors, integrators, sales organizations, and manufacturers. Errol Neider formed EGN Technical Resources in October of 2012, to serve the Automation, Controls, OEM Machinery, and Manufacturing markets. EGN is growing – offering new services and adapting its approach to match the growing demands of the industrial automation market in the U.S. and worldwide.

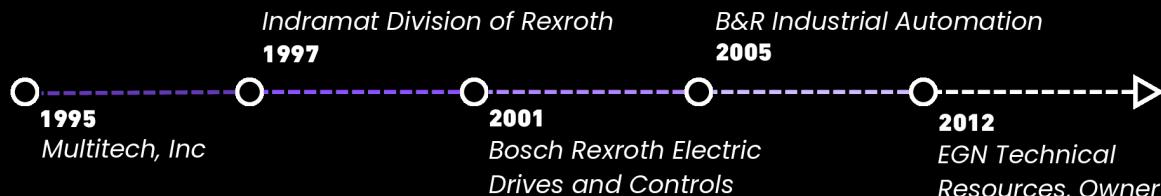

OUR EXPERIENCE

- Complete-Architecture, Industrial Automation
- Manufacturers of HMI, PLC, Servo and VFD Motion Controls and Drives, Integrated Safety, I/O, sensors, and Fieldbuses technologies
- High Technology Automation Distributors who resell these technologies to OEMs, System Integrators, and End Users
- End Users who buy and integrate OEM equipment, set corporate standards, and take part in industry standards committees and protocols for factory automation
- Industrial Automation, Robotics, and Material Handling focused System Integrators
- Original Equipment Manufacturers (OEM) for Factory and Process Automation who design-in precision industrial automation products and solutions into their machines
